

Cottage Stone® Lite

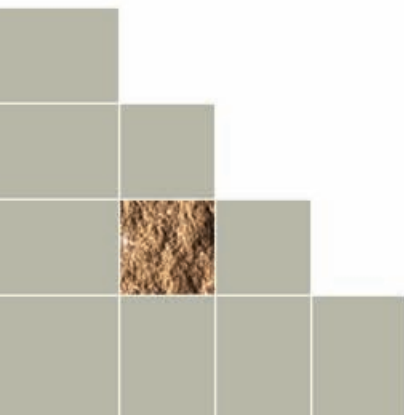

Combining functionality, performance and aesthetic appeal, Cottage Stone® Lite is perfect for terraced gardens, tree rings, or low retaining walls. The unique, patented design makes it easy to create curves and shapes and it saves time by eliminating the need to clean courses. Plus, Cottage Stone Lite's unique design allows you to build "vegetated walls", offering homeowners even more design flexibility.

Cottage Stone® Lite

The Advantages of the Cottage Stone® Lite System...

It's Fast...

Cottage Stone® Lite is a mortarless and pinless wall system. A rear lip located on the under side of each Cottage Stone Lite block ensures precise alignment and setback, eliminating guesswork and making installation easy.

It's Simple...

Weighing only 20 pounds, Cottage Stone Lite is as easy to handle, as it is to install. Its size makes it perfect for any weekend project including, but not limited to, terraced gardens, tree rings, and low retaining walls.

It's Strong...

Consisting of high quality concrete, Cottage Stone Lite stands up to the elements. Plus, when filled with gravel, the cores make strong, vertical "stone columns" that create a maintenance free wall for years to come.

It's Versatile...

Cottage Stone Lite's unique patented design makes it easy to create curves and shapes. Plus, the radius bottom eliminates the need for cleaning courses, saving time, and hassle.

Cottage Stone® Lite Block

Unit specifications, availability, color, and fascia options vary by manufacturer. Please contact your nearest Rockwood manufacturer or dealer for more information.

Beveled Split

Size: 4" H x 12" W x 8.5" D
100mm x 300mm x 213mm
